

EMCEY BROWS AESTHETICS · GROWTH PLAN

Road to #1 in Imus & Cavite

A realistic, prioritised local-SEO playbook to rank at the top for brow and aesthetic searches across Imus and the wider Cavite area — what's built, what you do, and the order to do it in.

Map Pack + Organic

90-day plan

6 town pages live

Prepared for Emcey Brows Aesthetics · Imus, Cavite

Target towns: Imus · Bacoar · Dasmariñas · General Trias · Kawit · Cavite City

1 How local ranking actually works

"#1" is really two contests — you want both:

Map Pack

The top-3 map results. Driven mostly by your **Google Business Profile**, reviews and proximity. This is where most local clicks go — and it's mostly *owner-driven*.

Organic links

The normal blue results. Driven by the **website** — content, town pages, schema, speed, backlinks. This is where the build work pays off.

Google weighs three things for local: **Relevance** (do you match the search?), **Distance** (how near is the searcher?), and **Prominence** (how well-known & reviewed are you?).

The honest timeline

Local SEO moves in *weeks to months*, not days. Top-3 in Imus is realistically ~1–3 months of steady work; winning competitive terms across all of Cavite is a 6–12 month effort built on consistent reviews and content. No single change flips a switch — this is a compounding game.

2 What we've already built for you

Lever	What it does
6 town landing pages (/areas/imus , /bacoor , /dasmarinas , /general-trias , /kawit , /cavite-city)	Lets each town rank for its own searches, not just "Imus"
Unique copy, titles, descriptions & FAQs per town	Google sees each as distinct, relevant local content
"Areas we serve" links on every page + in the sitemap	Helps Google discover & trust all the town pages
Beauty-salon structured data (address, hours, phone, geo)	Powers rich results & tells Google exactly what/where you are
Google reviews on-site + verification hook	Builds trust signals & connects Search Console

That's the Relevance box ticked.

The website now explicitly targets every town. The rest of this plan is the Prominence + Profile work that only you (the owner) can do.

3 The 90-day plan

Phase 0 — Foundations (Week 1)

- ☐ **OWNER** Claim & verify your **Google Business Profile**; fill in every field.
- ☐ **OWNER** Verify the site in **Google Search Console** & submit the sitemap.
- ☐ **DEV** Set the real domain (`NEXT_PUBLIC_SITE_URL`); add OG image, favicon, analytics.

Phase 1 — Profile & relevance (Weeks 2–4)

- ☐ **OWNER** Set the right **primary category** ("Eyebrow bar" / "Beauty salon") + secondary categories (Facial spa, Skin care clinic, Laser hair removal). Categories are a top ranking factor.
- ☐ **OWNER** Add your **services & 20+ photos**; set service area to all 6 towns.
- ☐ **OWNER** Post weekly **GBP updates** (promos, before/after).
- ☐ **OWNER** Make **NAP** (Name, Address, Phone) identical on site, Google & Facebook.

Phase 2 — Reviews engine (Weeks 2–12, ongoing)

- ☐ **OWNER** Ask **every** happy client for a Google review (use the site's "Write a Google review" button/link).
- ☐ **OWNER** Aim for a **steady 4–8 reviews/month** — velocity & recency beat a one-time burst.
- ☐ **OWNER** **Reply to every review**; naturally mention the treatment & town.

Phase 3 — Citations & directories (Weeks 4–8)

- ☐ **OWNER** List the business with **identical NAP** on Facebook, Instagram, Waze, Apple Maps, Foursquare, and PH beauty/booking directories.

Phase 4 — Content & backlinks (Weeks 6–12+)

- ☐ **DEV** Add a simple **blog/journal** for treatment & local posts (long-term organic engine).
- ☐ **OWNER** Earn **local backlinks** — partner salons, local bloggers/influencers, town pages, supplier listings, press.
- ☐ **OWNER** Add real **before/after photos** + town-specific reviews to each area page.

4 Keywords to win, town by town

Town	Primary search terms
Imus	brows Imus · eyebrow clinic Imus · ombre brows Imus · facial Imus
Bacoor	brows Bacoor · eyebrow embroidery Bacoor · lip blush Bacoor
Dasmariñas	brows Dasmariñas · microshading Dasma · facial Dasmariñas
General Trias	brows General Trias · aesthetic clinic GenTri
Kawit	brows Kawit · eyebrow embroidery Kawit
Cavite City	brows Cavite City · aesthetic clinic Cavite City
Province-wide	best brows Cavite · eyebrow clinic Cavite · aesthetic clinic Cavite

Your `/areas/*` pages already target these. Strengthen them over time with genuine client photos and reviews that mention each town.

5 How to measure progress

- **Search Console** → **Performance** — track position per search term & per town page over time.
- **Map Pack check** — search "brows in <town>" from that town; note your map position monthly.
- **Business Profile Insights** — calls, direction requests, discovery searches.
- **Reviews** — count & average trend (the strongest leading indicator of Map Pack rank).

Monthly rhythm

Once a month: check Search Console positions, count new reviews, see which town pages are climbing — then double down on what's working.

6 The 5 things that matter most

1. **Google Business Profile** — complete, correct category, active.
2. **Reviews** — steady stream, replied to, every month.
3. **Town pages** (done) — kept fresh with real photos.
4. **NAP consistency** — same details everywhere online.
5. **Patience + consistency** — show up monthly; rankings compound.
